FOOTING GUIDE – SLEEVE BASE

1. Measure 6460mm hole centres at dig sites. Inside distance between posts will be 6400mm.
2. Leave sleeve attached to post. Cover locking screw with electrical tape to protect from slurry.
3. Dig 750mm deep x 350mm diameter holes.
4. Fill with thoroughly mixed **rapid-set** concrete to 50mm below ground level.
5. Stand post with sleeve into wet concrete and sink to 10mm below locking screw.
6. Level post and tie 3 rope stays to post and peg into ground.
7. Leave concrete to cure for 48 hours. Remove rope stays and goal posts can be used immediately.
